

STONE LABORATORY 2017

TEACHER PROFESSIONAL DEVELOPMENT

EARN CONTINUING EDUCATION UNITS ON A LAKE ERIE ISLAND

For more than 20 years, educators from across the Great Lakes region and beyond have completed their professional development requirements at Stone Laboratory. In just one week of hands-on experience, educators earn two semester credit hours. Plus, all educators are eligible for tuition assistance. Classes can also be taken as non-credit workshops if the credit hours are not needed.

CHOOSE FROM THESE CLASSES

July 15-21 Field Geology for Educators: Geologic Setting of Lake Erie
Examination of geologic features along the southern shore of Lake Erie, including an interpretation of the geologic history of Ohio in the Lake Erie basin, and an examination of relationships between human activity and the geology of the area.

July 23-29

 Field Ecology

A field-based introduction to the distribution and abundance of animals and plants in pond, lake, river, marsh, beach, field, and woodland ecosystems for teachers, undergraduates, and graduate students.

July 23-29

 Water and Wildlife Training for Educators

A field-based opportunity to receive certifications in "Project Wild," "Project Wild Aquatic," "Science & Civics," "Project Wet," and "Healthy Water, Healthy People."

*A variety of scholarships are available for those taking Stone Lab education courses. Educators are encouraged to apply for Alpha Phi and Center for Great Lakes Literacy Scholarships. Ottawa County, Ohio residents may be eligible for a special scholarship. Visit go.osu.edu/slscholarships for details.
