SUMMARY OF DUTIES

Two positions are available for research aides at Stone Lab in 2017. Both assistants focus on research-related tasks including sample collection aboard research boats, lab experiments, maintenance of research facilities and equipment, transportation of samples, supply and equipment inventory, generation of lab reports, data entry and analysis as needed, and assist with the Research Experience for Undergraduates (REU) Scholarship Program.

The water quality research aide will also maintain and sustain algae cultures, report data to the Ohio EPA and conduct analysis of water samples.

The general research aide will also assist with animal care compliance and record keeping, seasonal animal colony husbandry.

QUALIFICATIONS

2 years of college course work and valid driver's license. **Bachelor's degree and background in chemistry or biology desired.**

The job posting will be open from **November 5, 2016 until 12 a.m. ET March 5, 2017**. Interviews for employment will be held **March 7-9, 2017** in Columbus, and decisions will be made by the end of March.
