Outdoor Photography Workshop

What to expect: Capture the wonder of the outdoors! Spend a fun and exciting weekend on Gibraltar Island while learning to take your outdoor photography to the next level. You'll receive both one-on-one "real time" instruction in the field, as well as intensive classroom preparation. In the classroom sessions, you will learn the simple steps that make the difference between ordinary snapshots and extraordinary photos. Minutes later you will be outside practicing those steps with the help of the workshop instructors. You will receive individual, practical, coaching. Best of all, you will go home knowing how to create eye-catching images!

What to bring: Your digital camera, camera manual, batteries and charger, a tripod, flashlight and/or headlamp (for night shots). It would also be helpful (but not required) if you bring a laptop to display and work on your images.

Costs: The all-inclusive workshop fee of $450 includes instruction, room and meals for two nights and three days on Gibraltar Island.

Registration:
Maximum enrollment is 15 participants. Participants must be 18 years of age or older. To register, complete a non-credit workshop application found at stonelab.osu.edu/applynow. For registration questions, call 614-292-8949.

Instructors:
Dr. Jeremy T. Bruskotter  Jim Doty, Jr.
Assistant Professor     Freelance Photographer
School of Environment and Natural Resources  www.JimDoty.com
