

# OHIO SEA GRANT

## College Program

### *Ohio Clean Marinas Program*

The Ohio Clean Marinas Program is a voluntary stewardship initiative led by 10 state and local agencies to encourage Lake Erie boaters and marinas to use simple, innovative solutions to keep Lake Erie clean.

Today more than 40 Lake Erie marinas have become Clean Marinas with another 30 pledging to do so. Thanks to the program's creative Shrink Wrap Recycling project, 1 million pounds of boat shrink wrap and greenhouse plastic have been recycled into highway guard rail blocks, which now protect 200 miles of Ohio highways.

## Empowering the Public
