

# EXPLORE SCIENCE

## STONE LABORATORY

### OHIO STATE'S ISLAND CAMPUS ON LAKE ERIE

### ONE- AND FIVE-WEEK COURSES

#### Introductory Courses for All Majors

Ecology and Conservation of Birds  
Field-Based Introduction to Oceanography  
Introduction to Biological Studies – Aquatic Biology  
Introduction to Biological Studies – Local Plants  
Introductory Insect Field Biology  
Lake Erie Sport Fishing

#### Non-Credit Workshops

Aquatic Invasive Species – Hazard Analysis and  
Critical Control Point (AIS-HACCP)  
Dealing with Cyanobacteria, Algal Toxins and  
Taste and Odor Compounds  
Fisheries Fundamentals Workshop  
Lake Erie Sport Fishing Workshop  
Fish-Sampling Techniques Workshop  
Outdoor Photography Workshop

#### REU Program

Get full-tuition, room and meals while conducting  
research alongside top scientists. For more  
information, visit [stonelab.osu.edu/reu](http://stonelab.osu.edu/reu).

#### Upper-Level Courses

Algae Identification Workshop  
Aquatic Ecosystems – Ecology of Inland Waters  
Current Topics in Environment and Engineering  
Ecology  
Evolution  
Environmental Science on the *Brig Niagara*  
Field Ecology  
Field Herpetology  
Field Zoology  
Great Lakes Research for Educators  
Group Studies: Climate and Sustainability  
Ichthyology  
Larval Fish Identification Workshop  
Principles of Oceanography for Educators  
Spider Biology  
Water and Wildlife Training for Educators

**Scholarships and part-time jobs available**
