

# OHIO SEA GRANT

## College Program

### *Ohio Coastal Training Program*

The Ohio Coastal Training Program is a NOAA-funded partnership among the Old Woman Creek National Estuarine Research Reserve, Ohio Sea Grant, Ohio Department of Natural Resources' Office of Coastal Management, and the Ohio Lake Erie Commission to enhance stewardship of Lake Erie by providing science-based training and technical assistance to professionals and officials who make decisions that impact the Lake and its watershed.

Thanks to the program's innovative workshops and conferences, more than 1,800 engineers, planners, zoning officials, and stormwater professionals from around the region have learned how to implement best practices that minimize development impacts on Lake Erie.

## Preparing Coastal Planners
