visit [stonelab.osu.edu](http://stonelab.osu.edu)

### AUGUST 17-19, 2015

Fisheries Fundamentals is a workshop geared toward students interested in fisheries management and research. The intent of this workshop is to give undergraduate, graduate and professional students exposure to fundamental principles and techniques associated with the field of fisheries science. Students will be exposed to a wide array of topics including: seamanship, vessel operation and navigation, experimental sampling design, data collection, sample preservation, field sampling gears, telemetry studies, fish handling, data presentation and statistics for fisheries students (if time permits). The course will consist of classroom lectures, field exercises, and optional after hours topical discussions.

### INFORMATION

To register, please visit [stonelab.osu.edu](http://stonelab.osu.edu) or contact Chris Vandergoot at [vandergoot.1@osu.edu](mailto:vandergoot.1@osu.edu) for additional information.

*Workshop registration is first-come, first-served. Preference will be given to undergraduate college students and is limited to 10 participants. Participants will not receive college credit.*

F.T. Stone Laboratory, The Ohio State University's Island Campus, is the Lake Erie research and teaching laboratory for the Ohio Sea Grant College Program. Course credits are based on the Ohio State University semester credit system and are transferable to most colleges and universities.
