SEPTEMBER 26-27, 2015

An introduction to the fish-sampling techniques used by the Ohio Department of Natural Resources (ODNR) Division of Wildlife and the Ohio Environmental Protection Agency (OEPA) Division of Surface Water, especially suited to college students considering internships or technician positions. Demonstrated equipment will include trawls, gill nets, fyke nets and various electrofishing gears.

INFORMATION

To register, please visit stonelab.osu.edu or contact Eugene Braig at braig.1@osu.edu for additional information.

Workshop registration is first-come, first-served. Preference will be given to undergraduate college students and is limited to 10 participants. Participants will not receive college credit.

F.T. Stone Laboratory, The Ohio State University's Island Campus, is the Lake Erie research and teaching laboratory for the Ohio Sea Grant College Program. Course credits are based on the Ohio State University semester credit system and are transferable to most colleges and universities.
