

STONE LAB COURSES

Detailed descriptions can be found
online at stonelab.osu.edu/courses.

INTRODUCTORY COURSES

2 credits

Introduction to Biological
Studies – Aquatic Biology
Introduction to Biological
Studies – Birds
Introduction to Biological
Studies – Local Plants
Introductory Insect Field Biology
Ecology & Conservation of Birds
Field-Based Introduction
to Oceanography
Lake Erie Sport Fishing

EDUCATOR COURSES

Field Geology for Educators:
Geologic Setting of Lake Erie
Field Ecology
Water and Wildlife Training
for Educators

UPPER-LEVEL COURSES

Five-Week Courses – 4 credits

Aquatic Ecosystems – Ecology
of Inland Waters
Behavioral Ecology
Ecology
Evolution
Field Zoology
One-Week Courses – 2 credits
Field Ecology
Field Herpetology
Spider Biology

NON-CREDIT WORKSHOPS

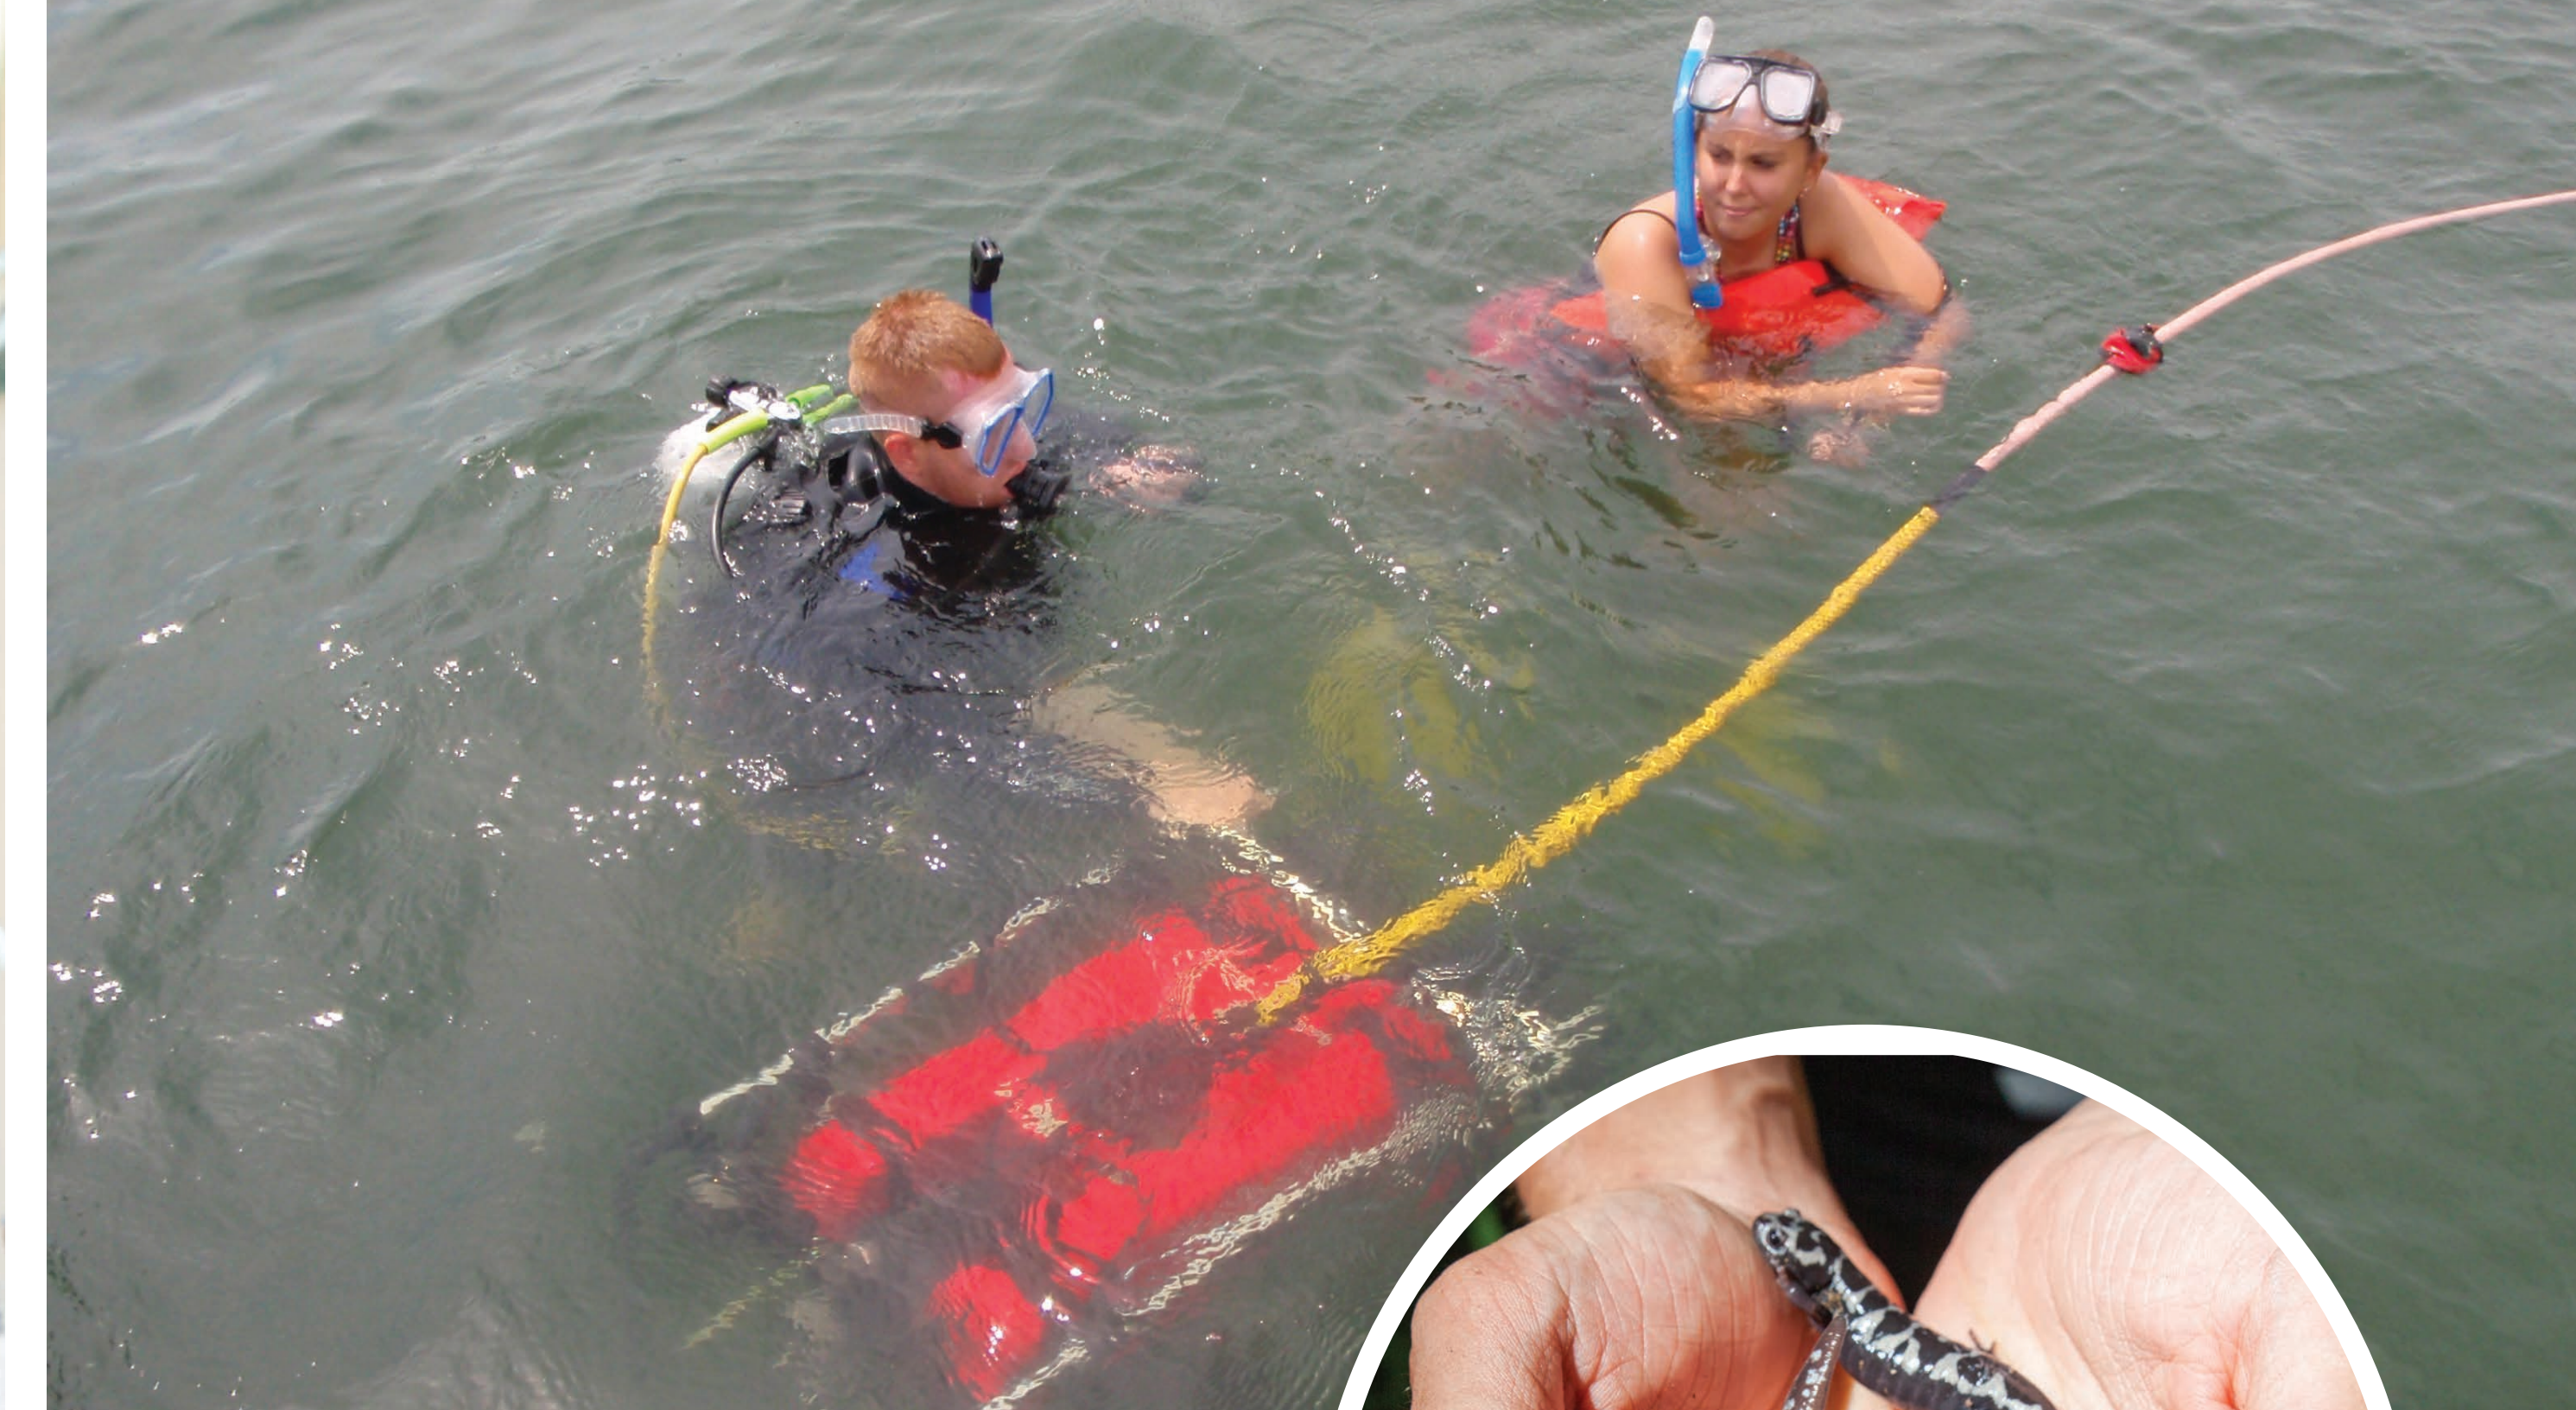

Algae Identification
Dealing with Cyanobacteria, Algal
Toxins and Taste & Odor Compounds
Fish Sampling Techniques
Lake Erie Sport Fishing
Larval Fish Identification
Outdoor Photography

FOR 120 YEARS, STONE LAB HAS BEEN A CRUCIAL ASSET IN LAKE ERIE RESEARCH, EDUCATION AND OUTREACH.

Stone Lab is the research station for
the Ohio Sea Grant
College Program, one of 33
NOAA Sea Grant programs,
and the summer island campus on
Lake Erie for The Ohio State University.

Each summer, students and
professionals from all over the country
gather here, taking 25 college-
credit courses and workshops and
conducting ground-breaking research
on Great Lakes issues.

Come to the lab for a class, workshop, field trip, tour or
conference and see what makes Stone Lab an enduring
force for scientific advancement.

RESEARCH EXPERIENCE FOR UNDERGRADUATES (REU) SCHOLARSHIP PROGRAM

Expand your research skills with Stone Lab's Research Experience
for Undergraduates (REU) Scholarship Program. Students spend five
weeks working one-on-one with research supervisors, collecting
data, analyzing discoveries and preparing a final presentation.

2017 REU topics

- Botany
- Ecology
- Fisheries Research/Management
- Ichthyology
- Limnology
- Ornithology

Application Deadline: February 6, 2017

Tuition Assistance

All students and educators taking for-credit courses
are eligible for tuition assistance, which typically
ranges from \$100 to \$2,500. Students enrolled in five-
week courses can also apply for Stone Lab's part-time
positions or find jobs at local Put-in-Bay businesses.

Jobs and Internships

Students enrolled in five-week courses can work a part-
time job on the island to cover room and meals. Jobs
may also be available at local Put-in-Bay businesses.
Full-time seasonal positions for biological field
station assistants, research assistants and hospitality
internships are also available. go.osu.edu/sljobs
