

A Taste of Learning at Stone Lab

Stone Lab, Ohio State's island campus on Lake Erie, is once again offering non-credit summer workshops that allow participants to catch a glimpse of Lake Erie science and recreation. Courses like algae and larval fish identification, sport fishing, and outdoor photography introduce students to the beauty of the Lake Erie shore.

[Request for 2014 Pre-Proposals Available](#)

The Ohio Sea Grant College Program is now requesting pre-proposals for one- to two-year research projects on Great Lakes issues with particular significance to Ohio, Lake Erie, and the Great Lakes region. The due date for pre-proposals is Thursday, 16 May 2013. Full proposals will be due Thursday, 18 July.

[Climate Tools Café 2](#)

Communities across the Great Lakes states are focusing on ways to become more sustainable, while facing the challenges of mitigating and adapting to climate change. To address planning concerns, this webinar will provide an overview of tools that can be used to help communities prepare for climate change.

[Shrinkwrap Recycling Program Reaches 2 Million Pound Mark](#)

Thanks to the Ohio Shrink Wrap Recycling Program, launched by the Ohio Clean Marinas Program and Ohio Sea Grant in partnership with Mondo Polymer Technologies, Inc., more than 2 million pounds of plastic shrink wrap have been recycled since the program's inception in 2006.

Uncertainties of a Changing Climate Topic of Ohio State Climate Webinar

The Ohio State University Climate Change Outreach Team presents Dr. Mark Berliner, Professor and Chair of Ohio State's Department of Statistics, who will discuss "Climate Change, Uncertainty & Communication" on Wednesday, March 27, 2013.
