STONE LABORATORY 2017

INTRODUCTION TO **BIRD IDENTIFICATION AND BANDING**

COURSE DESCRIPTION

This course is designed for anyone with a general interest in birds and is aimed at newcomers to birding and ornithology. Students will learn the basics of field identification of the birds of northern Ohio, the biology of bird migration and bird banding. The course will be primarily taught in the field to take advantage of the height of spring migration. The workshop will be based out of the Kelleys Island Field Station, providing students access to a migration hotspot as well as an active bird banding research site.

DATES
May 22-27, 2017

LOCATION
Kelleys Island Field Station
Kelleys Island, Ohio

REGISTRATION DEADLINE
May 1, 2017
Workshop registration is first-come, first-served and limited to 18 participants.
