Top five reasons to ship out on the US EPA R/V *Lake Guardian*:

1. Experience a once-in-a-lifetime professional development opportunity as you travel across Lake Huron.
2. Work alongside Great Lakes scientists to explore the lake's biology, geology, chemistry, and human impacts.
3. Use state-of-the-art sampling and monitoring equipment to study plankton, benthic organisms, and water quality.
4. Examine curricula and resources that will bring Great Lakes and ocean literacy activities to your classroom.
5. Build professional networks with Great Lakes educators and scientists.
