

RESEARCH EXPERIENCE FOR UNDERGRADUATES SCHOLARSHIP PROGRAM

*Live the life of a professional
researcher this summer!*

Stone Lab's Research Experience for Undergraduates (REU) Scholarship Program teaches students in six weeks how to conduct scientific, in-the-field research alongside top scientists.

While taking a six-week course at Stone Lab, REU students spend their non-class days focused on research. REU students work closely with their research supervisors to design an experiment, collect samples, learn how to analyze data and give a final presentation to their peers. Involvement can even continue beyond the summer, as students have the opportunity to attend local and regional conferences and co-author scientific journal articles about their research.

**This summer, students
will conduct projects in
the following focus areas:**

- > Botany
- > Ichthyology
- > Ornithology
- > Limnology

HOW TO APPLY

> Submit the REU application at
stonelab.osu.edu/applynow

> Applicants must submit:

- Stone Lab course application
- Cover letter (2-page max)
- Resume
- College transcripts
- Two completed recommendation forms

All application materials must
be received by **February 3,
2020.**

Selections will be made
by the end of March.

Students selected receive a full scholarship, including room and meals, in-state tuition for the 2-credit research experience and in-state tuition for one of our six-week courses. REUs must be paired with a six-week Stone Lab course. Visit go.osu.edu/upper for course listings.
